

Dear Expectant Parent(s),

Thank you for taking the time to consider and learn about us as you make the difficult decision of who will parent your child.

We are excited about the thought of becoming parents! We promise to create a home for your child that is overflowing with joy and unconditional love. We can assure you that if you choose us as adoptive parents, we will provide a home filled with loads of love, laughter, and fun.

Amy's family has a history of fertility issues so we have always considered adoption as an option for us to start our family. After trying to conceive for a year we started visiting a fertility doctor. Several rounds of fertility treatments later with no success we decided it was time to stop them. Although we cannot conceive a child, we know that we still want to grow our family and have someone to share our love with.

We tried to give you a summary of who we are and hope you can see the love and commitment we have for each other and our families. We hope that someday we can meet you to show you more of who we are and the love that we could offer your child.

Amy & Nathan

We are a fun outgoing couple and love to hang out with friends and family, going to movies, festivals and dancing.

Nathan got a new job so we recently moved to the Bloomington / Normal area.

---

We recently took one of our dream vacations to Northern Ireland and England.

---

Nathan volunteers with the high school First Robotics team and we love going to competitions and supporting the team.

---

Amy comes from a large family full of love and laughter.

---

Nathan's family events are typically held outside where everyone can run and play.
