

JACKIE AND SPENCER

JACKIE

Hi! I am Jackie, (she/her) I am 34 years old, born and raised in Chicago northwest side. I am first generation Cuban on my moms side, and Mexican/Polish on my dads. I have been a hairstylist since I was 18, I opened my second salon in 2018, and its going great. I am a mama to one sweet boy and I can't wait to be a mom to more. I believe in gentle parenting, kids are just little humans with big emotions, its our job as parents to give them the tools and guidance to be good people.

I love spending my summers on road trips like most midwestern people. Visiting beautiful places with people I love on long weekends. In my down time I spend a lot of my time hanging out with my family and friends, or watching movies at home. I enjoy painting and reading on my less busy days.

Favorites

MOVIE	Practical Magic
BOOK	Harry Potter Series
PLACE	New Orleans
SHOW	One Tree Hill

Loves

movie nights, late night drives, hanging out at the beach, family parties, sushi, autumn, weightlifting, long hugs, holding babies

SPENCER

This is Spencer, he is 6 and cannot wait to be a big brother. He is in 1st grade and now his love for math and art get to shine. He is really into rollercoasters and animals. He is kind and funny and adventurous. He lights up the room and brings laughter wherever he goes.

He is an active boy who loves spending his time at parks, climbing all over making friends. He loves spending time with his family and loves people. He is a total extrovert and cant wait to have a little sibling to love.

Favorites

COLOR--	Red and gold-
GAME--	xbox car racing

MEET OUR FURBABIES

our house is always filled with love, I feel like animals show kids how to give compassion to creatures without expecting anything back but love.

In our house we have Mittens and Bruno. Mittens are our senior cat, she loves to cuddle and loves to tip-toe into your room to get as close as possible. Bruno is our big baby, he is a 1 year old gentle giant. He spends most of his day lounging around the house and snuggling with us.

Spencer loves to read to them and we love to all hang out on the couch and cuddle.

Our Home

We live in a roomy 3 bedroom apartment in a beautiful tree lined street in Chicago. We have a lot and a half back yard with a swing-set and a chicken coop. In the summers we get a little pool so the kids can splash around on sunny mornings.

Our district school is fantastic and has a wonderful community. We are close to a lovely park with different programs so the kids can find what they love to do.

I have everything to make my house nursery ready, just waiting till we have a little baby to love.

SPENCER AND I AT OUR LOCAL NATURE CENTER

We both have too much love to give. We are ready to have a new baby to love and hold and cuddle.

I have wanted to adopt for a long time and getting ready has made me feel like my dream of having a larger family to fill our house with love and memories is finally going to happen and I can't wait.

Our family

Truly my village is
wonderful and supportive..

I live in a multigenerational household. My parents are in the apartment downstairs. I love that my son and future kids can see their grandparents, i love having them close. I spent a lot of time with my Abuela and cousins growing up and I feel like they are some of my favorite memories. My sister is my best friend and a 5 minute drive away, we see her often, she just had her first baby and we are so excited for more babies in the family.

We like to do picnics and watch movies, or bbq whenever we can, In the summer we like to visit our family farm in Wisconsin or rent a cabin for a weekend getaway.

my extended family is filled with wonderful people who we adore to see. We spend a lot of our holidays together. the kids go easter egg hunting and we have bbqs and potlucks anytime we can. Pre-Covid we had quarter parties to celebrate birthdays with all my aunts and cousins and bonus family members.

dear birth parent/s,

I understand this must be a difficult and emotional place to be, and I hope I can be support during this hard time.

I promise your child will always know their adoption story and where they came from. They will be welcomed by my entire family and all my friends, open arms (for all the hugs). We will make sure your child lives a wonderful, happy life filled with adventure and love and warmth. I will provide a safe and stable home for your baby. I promise to honor their culture and heritage. Know that we will always love them and that they will know you love them.

I look forward to sharing pictures, letters and visits within your comfort level.

LOVE,
Jackie and Spencer

Thank you _____

We are incredibly grateful you are taking the time to learn about us and we hope we get the chance to learn about your! We would be honored if you considered us
